Exclusive use brochure

**2023**

Bordering the golden sands of Coppet Hall beach, Coast is a haven between land and sea, floating against its tree line. Reflecting the curve of the beach and the rolling waves it overlooks, the restaurant is a bold statement of modern architecture, complementing its irresistible natural setting. Undeniably, it sets the tone for everything that happens inside.

The restaurant is a place to stir your senses as you relax and embrace the Coast experience. Here the freshest ingredients are thoughtfully crafted and paired with curated wines and breathtaking coastal views. You will want to return time and time again.
